Capitalism could not exist without the coins, banknotes, documents, information graphics, interfaces, branding, and advertisements made by graphic designers. Even anti-consumerist strategies such as social design and speculative design are appropriated to serve economic growth. It seems design is locked in a cycle of exploitation and extraction, furthering inequality and environmental collapse. CAPS LOCK uses clear language and visual examples to show how graphic design and capitalism are inextricably linked. The book features designed objects and also examines how the study, work, and professional practice of designers support the market economy. Six radical design cooperatives are featured that resist capitalist thinking in their own way, hoping to inspire a more socially aware graphic design. Includes, beginning Sept. 15, 1954 (and on the 15th of each month, Sept.-May) a special section: School library journal, ISSN 0000-0035, (called Junior libraries, 1954-May 1961). Also issued separately. This cutting-edge book on geriatric care management is designed to meet a growing area that spans across the continuum of health care, and is the essential reference for the geriatric care management profession. It gives health care delivery systems, private and public health care practitioners, business people, and schools of nursing, social work, and related health care fields the definitive book on geriatric care management. Handbook of Geriatric Care Management defines the work of the geriatric care manager. It offers an overview of what geriatric care management is, defines duties and procedures, and specifies the organizations that use a geriatric care manager. It provides guidelines for setting up a geriatric care management practice independently or as part of a larger health care delivery system or business, and contains key elements for marketing the practice. Several case studies are included. You should do more than read this book. It contains direct, practical advice in relation to each of the key cardiovascular disorders, and guidance on developing your own personal development plan and the practice learning plan. It is therefore a book to 'do', or interact with, rather than just read. Make use of this book and you will start to release the full potential of clinical governance and will improve the care of people at risk of, or with, cardiovascular problems.' Richard Baker, in his Foreword 'This book will prove to be of huge value to the many doctors, nurses and other disciplines who have a collective determination to improve the primary and secondary prevention and treatment of cardiovascular disease. It clarifies how the recommendations made in the NSF can be implemented and, as a result, can help people to believe that better, more effective care is possible. Most importantly, readers will also gain the essential confidence to know that they are, indeed, doing the right thing! Practical advice, information and useful case studies are available to the reader and the book narrows the gap between theory and practice. It will encourage primary healthcare enthusiasts to believe that they have the potential to improve community health. Many congratulations to the authors.' Lynn Young, in her Foreword For more than 20 years, Network World has been the premier provider of information, intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations. Readers are responsible for designing, implementing and
